**HOW WE CAN REVERSE THE CLIMATE CRISIS
WITH THE POWER OF OUR HEARTS & MINDS**

“Enter and be entrained into an inspiring and illuminating conversation and inquiry—one that our very lives, all of us and all life on Earth, depends on. May it lead to potent transformations inwardly and outwardly at all levels of scale.”

—Jon Kabat-Zinn, founder of MBSR;
author of *Coming to Our Senses* and *Full Catastrophe Living*

“The crisis with our planet can feel overwhelming, which is why I am so grateful for this remarkable book. Grounded in the conversation between the Dalai Lama and Greta Thunberg, with other valuable reflections added from various experts, the result is a resource that is deep, practical, and timely. Read this book, take notes, and then go and make a difference.”

—The Most Rev. Michael B. Curry, Presiding Bishop of
The Episcopal Church and author of *Love Is the Way*

“In *A Future We Can Love* Susan Bauer-Wu has created a captivating chorus of voices from key environmental thinkers articulating the dire realities and hopeful actions we can each take to stave off the climate crisis.”

—Daniel Goleman, coauthor of *Why We Meditate*
and *Altered Traits*

“Do we have the will, the capacity, and know the action to take to protect our earth from climate change? Inspired by a conversation between the Dalai Lama and Greta Thunberg, *A Future We Can Love* is a profound call to action. Rather than be an abstract or philosophical declaration, it provides tangible ideas to help support our earth for future generations.”

—Sharon Salzberg, author of *Lovingkindness*
and *Real Happiness*

“Never before have I seen the truths of our climate situation presented in such an intimate and vulnerable way. Susan’s conversation allows the world’s greatest scientists and spiritual leaders to become our personal guides. Together they give expression to our heartbreak, and together they describe the path back to hope . . . and to action. A must-read!”

—Philip Clayton, author of *The New Possible*;
president, EcoCiv.org
